Think-Pair-Share

Directions: First, read the question, think individually about a response for the question and record your answer. Second, pair with a student next to you, compare your responses and record the ideas you had in common and that are different. Third, with your partner, select one major idea to share with the whole class.

My question(s):

- Which of the 14 states voted “No” to including any amendments to the Constitution?
- Which of the 12 proposed amendments did 11 of the 14 states support?
- Which of the 12 proposed amendments did 11 of the 13 states not support?
- Why do you think there was an initial surge by some states to have a Bill of Rights but then it took a year and a half for the final adoption of the Bill of Rights by Virginia?

Think: During the next 30 seconds, think about your answer to the question above. Write your response in the space below.
Pair: Now, pair with a partner to exchange ideas. What ideas did you have in common? Put a (+) next to those ideas. What ideas did you NOT have in common? Put a (-) next to those ideas. Write down any new ideas you both have now in the space below.

Share: Select one idea from your “pair” section to share with the whole class. Write that major idea below. Also, as you listen to other groups sharing their ideas, record any new ideas below.
